

WE ARE LOOKING FOR YOU TO SUPPORT OUR COMPANY

Deutsche Werkstätten, founded in 1898, is one of the top destinations for high-end interiors. Our medium-sized company has its headquarters located in Dresden. Our scope of services includes the development of bespoke luxury Yacht interiors as well as the complete development of villas and other exclusive properties. In order to carry out our growing work load we are looking for Design Engineers who can join us immediately in our facilities in Dresden.

The tasks involved in the execution of complex interiors which you will complete on your own initiative include:

- Interpret and engineer complex interiors and furniture from architect's and designer's drawings
- Create detailed production and installation plans and parts lists
- Collaborate with team members, architects, designers and specialists

Working Environment:

A forward thinking philosophy, a strong team spirit and a good working environment have shaped the company ever since its foundation. Design engineers work closely with the extended project team and maintain an ongoing exchange with production and manufacturing, as well as with architects, designers and specialists on an international level.

Requirements:

You are an engineer or technician with a background in furniture, interiors or building construction. You will have 3D CAD application experience and a good command of spoken and written English or German. You are able to work both, independently and as a team player, are able to work under pressure, are communicative and reliable. You are able to make decisions in uncertain situations and are adaptable to new methods, technologies and materials. And, ideally, you have education in and/or practical experience in wood technologies, as a joiner/carpenter/cabinet maker in the manufacture and installation of interiors.

We offer you a position in which you can expect work which is always varied and interesting in the creation of high-end interiors. You bring your expertise, creativity and personality into a modern, forward thinking and rapidly expanding company with an ambitious team and flat organizational structure. You can expect a unique atmosphere and culture, in which the love of craftsmanship and a creative and open way of working are paramount. We offer fair remuneration that corresponds to your position, qualifications and experience.

Our projects are high quality and we have made many experiences but we also had to start once to develop. Please don't hesitate to contact us though. In our company work a lot of entrants and so we are experienced in helping and teaching.
