

Are you inspired by product development ? Are you structured and organized, love to meet new people and face new challenges? Are you creative and open minded? Then you might be just the person we are searching for!

PDC Furniture, part of **the Development Arena** – Industrial Strategies-**IKEA Industry**,

is looking for a **Product Development Engineer**.

Location: Poland- PDC Zbąszyń

As a Product Development Engineer you will ensure the delivery of the furniture solutions of highest quality optimized for a possible implementation in IKEA Industry production units or external IKEA supplier. You will ensure that delivered solutions are “right from the beginning” through the experience, technical skills and creative and open mindset of a PDC Product Development Engineer.

Main assignments:

- Accomplishment of goals agreed in projects in collaboration with IKEA Industry, IOS and other customers,
- Leading tasks within projects according to IIPM methodologies.
- Finding best technical solutions for furniture construction, creating documentation and drawings.
- Active participation in the furniture, material and technique development, full engagement in the workshops with multiple project teams.
- Job requires occasional business trips, mainly to Älmhult Sweden, but also to other factory sites in Poland and abroad.

YOUR PROFILE

Your knowledge, skills and experience include:

- Education: Manufacturing, Production Engineering, Wood technology an advantage
- Degree: BSc, MSc,
- Experience: Industrial design, wood, furniture, production, engineering, documentation& drawings.

- Has well developed attention to details, team oriented, diplomatic, handles well working with people from other cultures and countries, curious, taking energy from stressful situations, organized,
- English is required on a communicative level (at least B1), so that a person can make presentations, discuss issues over phone, write emails and be understood. Understanding of technical documentation written in English is also a must,
- Comfortable work with MS Office suite (especially MS Excel), familiar with MS Windows and the general knowledge of CAD/CAM solutions (Autocad, Solidworks).
- You have strong integrity and promote our IKEA values and business ethics in a high extent.

If you have any questions please contact:

PDC Furniture Manager: tobias.arvidsson@ikea.com

HR coordinator: monika.krolikowska@ikea.com

We look forward to receive your application before 19th of October, 2015 via the IKEA webpage IKEA.pl (please choose Working at IKEA at the bottom of the page and then Available jobs) or please send it via e-mail to monika.krolikowska@ikea.com (please apply in English).

IKEA offers well-designed, functional home furnishings at prices so low that as many people as possible can afford them. IKEA Industry is the world's largest producer of wooden furniture and is an integrated part of IKEA Group. IKEA Industry has 44 production units in 11 countries with about 20 000 co-workers. Every year, IKEA Industry produces more than 100 million pieces of furniture for IKEA customers.
